

This book presents comprehensive results from case studies of five innovations in science education that have much to offer toward understanding current reforms in this field. Each chapter tells the story of a case in rich detail, with extensive documentation, and in the voices of many of the participants—the innovators, the teachers, the students. Similarly, Volume 3 of *Bold Ventures* presents the results from case studies of five innovations in mathematics education. Volume 1 provides a cross-case analysis of all eight innovations. Many U.S. readers certainly will be very familiar with the name of at least one if not all of the science innovations discussed in this volume—for example, Project 2061—and probably with their general substance. Much of the education community's familiarity with these arises from the projects' own dissemination efforts. The research reported in this volume, however, is one of the few detailed studies of these innovations undertaken by researchers outside the projects themselves. Each of the five studies was a large-scale effort involving teams of researchers over three years. These teams analyzed many documents, attended numerous critical project meetings, visited multiple sites, conducted dozens of individual interviews. The team leaders (Atkin, Huberman, Rowe), having spent much time with science education over long careers, looked at these innovations through many lenses. It was a daunting task for each team to sift through the mountains of detail in order to bring the most compelling themes to the surface.

Failure Is Not an Option: Creating Certainty In the Uncertainty of Retirement, Victorian Period - Excluding the Novel (Great Writers Library), The Midwife and the Assassin: A Midwife Mystery (The Midwives Tale), Sociodinamica della cultura (Italian Edition), System-Level Power Optimization for Wireless Multimedia Communication: Power Aware Computing, Crucial Conversations: Tools for Talking When Stakes Are High, Second Edition, Encyclopedia of Library and Information Science: Volume 45 - Supplement 10: Anglo-American Cataloguing Rules, Second Edition to Vocabularies for ... and Information Science Encyclopedia),
